SIGNATURE | XJ-M155

3000 LUMENS • XGA (1024 X 768) • 1.5X ZOOM • USB • WLAN

The Casio Signature Series Projectors provide high brightness and connectivity for use in large and small rooms.

By combining a laser, a fluorescent element and LED's Casio has created an original mercury-free hybrid light source capable of generating high brightness.

MOBISHOW® (Smartphone compatible)

Leave your laptop home and make your presentation from your mobile device. Casio Signature models will project from iPhone®, Android®, iPad®, iPod® and Microsoft Windows® Mobile, via a WiFi 802.11b/g/n connection. Software is required and included with select Casio USB models. Device application is also required and available by free download with select Casio USB models.

USB DEVICES

You can also load your PowerPoint® presentations onto a thumb drive, plug it into a USB compatible model and simplify presentations even more.

3-D READY

3D is not just for scientists or movie fans. It can provide dramatic impact for business presentations— and research has shown that it can help students better engage with their lessons and it can lead to better academic performance. All Casio Signature models include 3D capability. Optional 2D-3D software can help you convert standard presentations to 3D. (3D glasses and software required and sold separately.)

SUPERIOR COLOR

One of the benefits of the hybrid light sources is an increased color gamut – these projectors will show about 50% more of the spectrum (compared to our previous mercury lamp projectors), for more accurate renditions, subtle shadings. Images appear brighter as well.

3-YEAR WARRANTY

3 year warranty on the projector and 3 years or 6,000-hour usage on the light source.

*3 year warranty on the projector and 3 years or 6,000-hour usage on the light source.
